FINE PROGRAMS ARE FEATURES OF COMMUNITY WEEK

Federation Presents Excellent Plays and Pageants at Allingham Park All This Week—Vernon Band Has Been Assisting

Community week programs have been pronounced as excellent by the crowds who throng Allingham park each night. Though the rain hindered evening night, many went any way to hear and see the little children in their difficult roles. On account of the absence of several little players, the Mother Goose pageant was repeated last night, which was enjoyed hugely by the crowd. The Woman's club staged, "A Manless Wedding", last night directed by Mrs. Leon H. Brown. Leon H. Tuesday night the Delphians in a very clever play, "The Twelve Old Maids", directed by Mrs. R. T. Lutz, presented a screeningly funny comedy. This play was staged at Chillicothe previously to its presentation here by the same company and the same twelve appeared in the parade in costume. The play was interspersed with clever "take offs" on the marriageable men of the city and their plans for a man, any kind of a man, would bring tears from the heart of a stone.

Wednesday night, the Musicians' club program consisted of several vocal and instrumental selections and readings by Miss Alice Stokes and Mrs. A. N. Vernon. Little Miss Mary Friserson in a pleasing skirt dance occupied the spot light. The second part of the program was a playlet, "In a Garden". Mrs. W. N. Stokes effectively read the program and the curtain going up revealed a beautiful garden scene.

Mrs. C. J. Farrell acted as hostess at the garden party and other members of the club were guests around the punch bowl. The play was built about the songs that touch the heart, old favorites were sung and each song was accompanied by a tableau conveying the idea of the song. Those taking part in the tableaux were: Mr. and Mrs. T. J. Griffiths, R. M. Fielder and Miss Beulah Ladd, Miss Johnnie Mallow, R. T. Lutz and Miss

OIL OPERATIONS REMAIN ACTIVE

WELLS-GUIBERSON CENTER OF ATTRACTION AS TEST NEARS OIL SAND DEPTH

Operations in the oil field south of town this week are active with the Wells-Guiberson remaining the center of attraction as an oil or gas sand is expected at about 1254 feet. The well is being drilled at about 1200 feet and drillers expect to find a sand by tomorrow night. The test is on section 99 and is expected to be a larger gas well than the Church No. 1.

The Daniels-Murchison and Pigg is being drilled at about 200 feet and the drillers are still fishing for the tools lost in the Richardson No. 1.

Considerable trouble was met with Tuesday in cutting off the gas flow of the Church No. 1. The brass rim was blown from the cut off valve when the gas was allowed to escape and men working on the well were more than an hour getting the rim replaced and the gas flow cut off.

Material is being moved on the location for the Stephens No. 4, and the machinery recently destroyed by fire at the Sigler wells south of the South Vernon field, has been replaced and the wells again placed on the pump. The wells are holding up to their old production.

SENATOR BURKETT ADDRESSES SMALL CROWD YESTERDAY

Candidate for Governor Speaks in District Court Room in Interest of Campaign—Favors Cut in State Expenses

Declaring in favor of better rural schools, better roads, a reduction in the running expense of the state government and for the abolition of ten state boards, Joe Burkett, candidate for Governor, spoke to a small crowd in the district court room yesterday afternoon at 2:30.

Cecil Storey introduced Mr. Burkett as "The Senator from Eastland," and praised him for his work as a lawyer and member of the State Senate.

Mr. Burkett denounced the present plan of handling the public schools of the state. He stated that he would charge all students a fee for attending the higher institutions and let the money pay the expenses of running such institutions. The reason given for this was to let the money, now being spent by the state on these schools, be spent for the rural schools. He stated that he was not opposed to the universities but that he was opposed to men and women after they had become of age being sent to school at the expense of the state.

He proposed a two-year credit system for the farmers which would involve the state in a central bank owned and operated by the state.

He stated that the taxes of the state could not be lowered for the next two years, but the running expenses of the state could be reduced. He proposed to do this by abolishing ten state boards now operating in the state government.

Declaring in favor of better roads he stated that he would put trusty convicts from the state penitentiaries on the roads to keep them up. He opposed selling the prison farms but wanted to consolidate them into a more closely connected organization.

Mr. Burkett declared the automobile tax to be unjust and that the proper way to arrive at the taxing of automobiles was to impose a tax on gasoline. In this way he proposed to tax each man in accordance to the amount of travel in an automobile over the state highway.

In closing he scored Felix D. Robertson for being a candidate nominated and pushed forward by a secret organization. He charged Lynch Davidson with being a candidate backed by the lumber interests of the state, declaring that Davidson favors the exempting of cut-over timber lands from taxation.

After his speech here Mr. Burkett left for Crowell where he spoke later in the afternoon.

TWO-DAY HARNESS RACE MEET OPENS THIS AFTERNOON

Approximately 50 Horses Entered on American Legion Card Here Today and Tomorrow—Good Amusement Company

The two-day harness race meet which is sponsored by the Albert E. Robinson Post, American Legion, will open this afternoon at the Fair Park at 2 o'clock. Approximately 50 horses are entered in the races and some of the fastest horses ever to take part in races in this section are here. The McGregor Shows are furnishing amusement for the meet and opened at the fair grounds last night. This company has just finished a date at the Memphis auto races.

The two-day race meet is the first regular race program to be held here in a number of years. The number of horses entered is greater than the promoters had expected but all entries were cared for and the track placed in first class condition for them to train for the races. The horses have been at work since they arrived here and have the horses in good condition. The hot weather this week has worked a hardship on some of the horses due to the fact that they have just come from colder climates and the sudden change may cause the trainers some trouble in conditioning them.

The latest arrivals at the stables are six entries from Pueblo, Colo., that promises to be fast horses in the meet.

The training at the park has been going from early in the morning until late in the afternoon and some of the trainers report that their horses have shown up better here than they did at Wichita Falls. The condition of the track is very pleasing to the visitors and all trainers are after the prizes offered for the winners.

The members of the American Legion have been working for the past month on the advance ticket sale and have put advertising over this section of the state. The funds raised by the meet will go to a fund being raised by the local boys for a home for the local post, to be erected in Vernon.

CLARK H. ISH IS DROWNED IN LAKE KEMP WEDNESDAY

Prominent Young Man Seized With Cramps While Swimming Narrow Stretch and Sinks in About Fifteen Feet of Water

Clark H. Ish, 27, son of former Sheriff W. A. Ish, was seized with cramps and drowned Wednesday afternoon at 1:30 o'clock in Coffee creek about 25 miles south of Vernon where he with Guy Cain and Eddie Collins was spending the day fishing. The body was recovered at 5:30 o'clock the same afternoon by Dek Dowers, who, with other men, was aiding in the search. The body was located by means of long poles and was found in 12 or 15 feet of water not far from where he went down. A pulmotor was taken from here but was found to be useless on account of the length of time elapsing after the accident.

The men and been fishing on a small island and Mr. Cain had returned to the main land after a minnow bucket. Mr. Collins was still on the island when he heard the drowning man calling for help. He joined two poles together and tried to reach the straggling man but was unsuccessful and Mr. Ish never came to the surface after he sank the first time.

Mr. Collins reached the nearest telephone as soon as possible to summon aid and a party left immediately for the scene. They returned late that evening with the corpse.

Mr. Ish was born and reared in Vernon and was a bookkeeper at the Vernon Cotton Oil company, where he had been for several years. During the war he served overseas for several months. BIG ATTRACTIONS AT COUNTY FAIR

FIREWORKS, SHAM BATTLE
AND GOOD MUSIC FEATURES
OF FALL FESTIVAL

A comparison of attractions for the various county fairs in Texas and Oklahoma shows that the attractions booked for the Wilbarger County Fair this year far outclass the general run of county fairs, according to H. B. Yelvington, manager, who has just completed a check of various fairs and their attractions.

So far as can be ascertained there is not another fair in Texas or any in Oklahoma that are going to have a sham battle conducted by the United States Army. Captain Clyde Watts with officers of the Crowell company are making complete arrangements for the battle here. It has been approved by Col. Willis P. Coleman, regular army chief instructor for the Texas National Guard and by other officers. Bomb throwing, signal corps rockets and other fireworks in addition to thousands of rounds of ammunition will be used in producing a battle as nearly like war as possible, without using bullets and deadly gas.

Few county fairs in Texas have bought fireworks displays for their fairs this year and those that have bought them have most all bought inexpensive exhibits. The Theatrical display to be used here is among the best known in the world and the Fall of Fort McKinley is one of their master sets.

In addition to the sham battle, fireworks, one of the greatest carnivals on the road and a running race program that will be among the best in Texas, the fair management has arranged for a number of other attractions to be used in front of the grand stand. The Vernon Concert Band will furnish music and in addition the carnival company has two bands, so there will be all kinds of music in the big meet.

COUNTY ROADS IN GOOD SHAPE NOW

FOUR COUNTY TRACTORS AT WORK SINCE FIRST OF THE YEAR

Roads over the county are in good condition following the rains of the past few days. The first of the year the roads were put into readiness in order that they might be in good shape for the heavy hauling of the harvest season. The tractors over the county in the four precincts were kept busy with the result that the roads are in better condition than they have been for several years.

Commissioners from the various precincts report that the general public has cooperated this year in keeping the roads in good condition better than ever before and that this is the one means of keeping the roads in good condition.

All roads leading into Vernon from the rural districts that are not paved have been worked over just in time for grain hauling and the marketing of other crops later.

Work is to begin in the near future on the road in the east part of the county near Harold for the new pavement. When this stretch of paving is completed there will be approximately 20 miles of the Colorado-Hill Highway paved.

WHY LIMIT PENSION BENEFITS?

We are gradually working in the direction of pensions or bonuses or gratuities for most everybody. The soldiers have been granted theirs, such as it is. The demand is being made on behalf of the farmers, the industrial workers and other groups. Now comes a movement, made ostensibly in behalf of the school teachers of Texas, though it is doubtful whether the great body of teachers have any part in it or sympathy for the demand being made in their name, demanding that the State shall pension school teachers.

Andor compels us to admit that the lot of the school teacher is by no means alluring. The teacher spends long years in study in preparation for his work. He receives no larger compensation and his job is dependent on the political whims of the community in which he works. Truly the path that lies out before the teacher is not one that is attractive as the importance of the profession might demand.

But neither do the great majority of the people have easy times. Life is a struggle for most of us. Our pay is not always large. Our employment is often irregular and the pay none too great. As a matter of fact the same argument that is advanced in support of the proposition that teachers should be pensioned could be urged with equal logic in behalf of workers in many other departments of life.

This being true, why not pass this pension business around and give all of us a slice out of the public funds? Why limit it to a few special groups or classes? The farmer works long hours, receives less than living wages for his crops, oftentimes, why not give him a pension? The work of the miner, the railroad, the waterwoman, the ditch digger, the telephone operator, the butcher, the baker, the brewer, manufacturer, and all the rest is essential. Why not these? Why not? They render useful service.

This kind of paternalism is not altogether new. Several European nations have experimented with old age and unemployment pensions with indifferent success. Argentina some time ago adopted the pension idea at the demand of the organized labor of the country. Now after some little experience, organized labor is demanding repeal of the law, because the young, active workers have realized that they are furnishing the money. Everything was all very fine in theory. They thought the government had plenty of money and could just as easily pay the pensions, but when they came to put their theories into practice they bumped up against the very stubborn fact that the government collected the money from the earners before it could pay it out to the beneficiaries. England, following the war, tried the idea of pensioning the unemployed. The dimes were increased to the point where there was little incentive to work. The idle fared just about as well as the busy.

It doesn't require any seer to predict the final result of extended and continued application of the bonus and pension idea. It is the application of communism on a limited scale, and if communism on a small scale is good policy, why limit its benefits to certain preferred groups? This is exactly what was attempted in Russia, and every intelligent person who has kept even slightly informed as to what is going on in the world knows what communism has meant in Russia. Still we have in this country people who profess loyalty to the most orthodox political beliefs advocating the introduction of communism in its most insidious form—the gratuity, the something for nothing, the desire to feed from the public trough.

REPUBLICAN MEETING DOES THE EXPECTED.

The Republican convention proved to be a very tame affair, as had been expected. The Cleveland meeting was so tame that many of the visitors, tiring of the monotonous, went home. Contests and fights are the things that produce enthusiasm. The Coolidge forces were so completely in control of the situation that nobody dared start anything. The Wisconsin delegation got itself noticed by being opposed to most everything the rest of the convention wanted, but it accomplished little besides getting mention in the newspapers.

The much-talked third party movement did not materialize. In fact, if Senator La Follette of Wisconsin had ever seriously thought of launching a third party the trend of affairs at Cleveland must have chilled his ardor. If the pitiable showing of Senator Hiram Johnson's candidacy had not already done so. A more unanimous gathering could hardly be conceived. It was so unanimous that it was uninteresting. Naturally under such conditions, third party talk was futile.

But when the Democrats meet over in New York things will be different. No one group or candidate will enjoy anything like the control that insures harmony. Several presidential candidates have delegates pledged but none has a sufficient number to insure or even make probable his nomination. Another thing that will make the Democratic convention more lively is the fact that each of the leading candidates for the nomination will face some very determined opposition.

This is just the sort of a situation that generates enthusiasm and starts parades. Nothing is quite so interesting to the average man as a good, general fight. Fights there will be aplenty in New York, and no one seems to be capable at this time of naming the winners.

RECORD POT SHOTS.

You seldom see: A too dancer who is also the high school honor graduate; a race horse with the trouble; a bow-legged fish.

Of course a keynote speech is supposed to be delivered by some person who knows the right time.

So far as we have been able to tell from this distance, Hiram's absence from Cleveland didn't cause much grief among the delegates.

It seems that the Republicans take credit for most everything that has happened in the last four years, except Fall, Sinclair, Denby and a few little matters in connection with the oil scandal.

Ed Spivens says he once knew a man who was so stingy he complained because matches had heads on only one end.

DOES YOUR BOY GET HIS SHARE?

(By Phoebe K. Warner)

It has been estimated by one of our Middle West cities that it costs \$905 to send a boy or a girl through the public schools from the first day in the first year to the graduating platform in a city high school. Since there are so few rural high schools to calculate from we will use the city figures for the lesson. However, this computation is based on those schools that are

divided into three stages, the elementary grades, the junior high and the senior high school which does not apply in many of our schools of Texas. But they will do to think about.

Have you ever estimated what it costs to feed and clothe a child from infancy to manhood or womanhood? You never have? Why? Oh, just because you recognize it as a human duty and what's the use to count it up? It may make it seem harder. Anyway, some folks make their children cost more than others. But often the very children that cost the most in cold cash to feed and clothe and rear are the children of parents who can least afford to be extravagant.

But look at these figures for a minute: \$250 for six years in the elementary grades. \$120 for the two years covering the junior or the seventh and eighth grades as they are classified in some of our States and \$535 for the four years in high school. Now, the first question we asked ourselves when we saw these figures was this: How much does it cost to put a child through the public schools of Texas, when we allow only \$13 or \$15 per capita to the child?

But he that as it may, the fact that is self-evident is this: That we all spend more on the last four years of child's education in the high school than we spend on all the years he is in the grades, that the great majority of the children of Texas and of the whole nation never see inside of a high school. Ninety per cent of them never get past the seventh grade and enter any kind of a high school either in the city or the country. The thing we want to know is WHO GETS MY CHILD'S SHARE of that \$905 that he is supposed to get. If I do not send him to school? Who gets the \$535 that the county and State spends on high school education? Are all those high priced teachers, and good equipment and comfortable seats and more modern buildings wasted? And another thing that is bothering me is who pays those bills? Have all the parents of the nation been paying all these years to give the children of other people a high school education while their own went on and worked without it? Don't you know if one man thought another man was getting \$535 off of him in a trade that was not fair; if he thought the other fellow was getting \$535 that belonged to him there would very likely be a shoot-

"Flu" and Fever Almost Left Permanent Injury

Influenza, dengue fever, etc., often leaves the patient with some form of colitis, which if neglected results in kidney trouble, high blood pressure, rheumatism and even tuberculosis.

A physician discovered a preparation known as Ferrasol which dissolves the food wastes in the colon, breaks down the mucus lining where broken down and eliminates the accumulated poisons. It also aids digestion, keeps the kidneys regular and is absolutely harmless. It proved successful with hundreds of his patients and now FERRASOL can be purchased at your druggist's.

Take Ferrasol regularly night and morning for a month. It will do the work for you or your money refunded. "I was left with a bad colon after a severe attack of the flu and dengue fever. I tried everything that medical science could think of without permanent relief. ing go off or something similar. Man No. 1 might not need the \$535. He might not care a cent for the money but just the thought of somebody cheating him out of it.

But how about your boys' share in the school funds of this State? Who is collecting them? And if \$535 was all your boy was losing it would not be so bad. But that is the least part of his loss. If for any reason your boy does not go through high school he is missing a lot of fun that every boy in America is justly entitled to. He is missing his chances to compete in every kind of business with all the other boys who will be men when he is a man. He is missing a chance to earn more every day of his life after his high school course is over. He is missing every possible opportunity to ever go to college if in later years he decides he should have gone because no boy can enter college today that has not completed the high school work. He is missing his chance to become any kind of a professional man. He will not be able to rise very high even in the newspaper work without a high school education when he becomes a man. He will be chained to certain lines of work which he is not even prepared to do. Your boy is just as much entitled to his share of the high school funds of this State as he is entitled to his share of the food on your table or to his bed in your home, what would you do if some of the neighbors' children walked

into your home and ate all the food you had bought and paid for every day for four years and left your own children to go through life half starved? How would you feel if the neighbors' children walked into your home, put on your children's clothes and walked out with them and yours had to go half clad or plumb naked? And just what would you do if your neighbor drove up to your garage, cranked up your Ford jitney or your Lincoln and rode away without a word and left you to walk through life? Well, that is just what you are doing when you keep your boy out of school the last four years of the best part of his school life. Now if it were true that somebody else was getting your boy's share it would not be so bad. But that is not true. The other boy is getting only his share. That is all he can get, while YOUR BOY'S part simply goes to waste on an empty seat and vanishes into space. Nobody gets it. You make it possible for the other boy to have a high school education by paying your taxes but the other boy does not get your part. YOUR PART of the high school fund is simply thrown away when YOU FAIL to send your children through the high school. Nobody has robbed you or your boy but yourself. And you have robbed nobody but your own child. You have done your part for your neighbor's child. It is your OWN SON and that you have cheated out of the birthright of his govern-

ment. And this is just what every father and mother in Texas and America is doing who refuse to provide a high school for their children and then keep them in it until they have finished the full course and are ready to go on, or go to work to build a future for themselves. With a good high school course thoroughly mastered any boy has a foundation on which to build any kind of a human structure he may choose. It belongs to him. It is his by inheritance as a free-born American citizen. The government makes it possible in order to make a good citizen out of him and no MAN not even his own father has a right to deny any boy his right and an opportunity to go through a good high school.

MANY AMUSEMENTS AT ANNUAL CAMP

TEXAS LEAGUERS TO PLAY FOR NATIONAL GUARDSMEN DURING SUMMER TRAINING

All officers and enlisted men of the local T. N. G. company, are being informed this week of the many things to be attended to before leaving for the annual summer camp to be held at Fort Crockett, Galveston, July 5 to 19, inclusive. All unit commanders, and officers are requested to rush recruiting in order that the men, units will be able to boast of the maximum strength when they are reported into the camp headquarters.

Word has been received here concerning the camp and the amusements for the members of the guard present. Practically every team in the Texas League will play the Sand Crabs during the camp and the training schedule is so arranged that fishing and boating can be enjoyed by all who want to take advantage of these sports. This is the first camp to be so arranged in the history of the National Guard and fresh air reports received here the City of Galveston is making preparations to entertain the visitors on a big scale.

Company "L," local unit, is undergoing a hard training schedule in preparing for the camp. Every phase of training that has been taken up at previous camps is being reviewed and many new changes in training regulations are being studied.

NIGHT HAWKS' PROGRAM IS VERY INFORMAL

Upon being asked to state why the regular Night Hawks' program of the Kansas City Star is regarded as the most successful of its kind in America, the "Merry Old Chief" of the Night Hawk answered, "Because of the absolute informality of this program, and because there is something doing every second from the time we tune in until we sign off."

The Night Hawks "take the air" at 11:45 every evening. Their program lasts until one o'clock in the morning. At this time no other programs are broadcast in the vicinity of Kansas City and the air is clear.

From the time of tuning in until the very last moment, the "Merry Old Chief" keeps up a rapid fire of comment, which it is impossible to describe. Those of you who have heard him know of the artistry of his work. This accounts in great measure for his popularity.

There is no question but that every person in America who has heard the Night Hawk program and the "Merry Old Chief" will be mightily anxious to see the man himself. This is the opportunity afforded by the Premier Chautauqua program which appears here June 23.

DICK BOWERS WINS FROM R. MAYWOOD

BEST MAN LOCAL PUGILIST HAS MET IN ENTIRE CAREER—OUT WEIGHED BOWERS

Dick Bowers easily defeated Ray Maywood, of Wichita Falls, in a ten-round, frame at the Wichita Theater last night. Maywood was the heavier man of 15 pounds, but failed to break down the jab and punches of the Vernon fighter.

The Wichita Falls Record News says the following about the fight: Dick Bowers of Vernon, clearly outpointed Ray Maywood, of Wichita Falls, although judges' decision gave the bout a draw. Maywood substituted for Frankie Fluk of Fort Worth, who was originally matched to meet Bowers. The local fighter was notified of his selection to fight Bowers Thursday morning.

Bowers could not hurt Maywood very much, but he left jabbed him all over the ring, and tossed in an occasional right hook. Toward the latter part of the fight Maywood's left eye seemed on the verge of closing up. However neither of the boys were damaged much. Bowers was the aggressor the greater part of the time, but did not win by any large margin. Maywood hooked the Vernon leather chucker a number of solid snuffs.

Mr. and Mrs. Sumner left immediately after the ceremony for California where they will spend the summer.
